

BE SMART, BE SAFE and HAVE FUN

Stay Together

- Recognize when others in your group are tired or having difficulty and adjust pace.
- Look out for everyone in your group.
- Set a reasonable pace so everyone can stay together.
- Designate a “sweep” boat to bring up the rear and make sure you don’t lose stragglers.

Watch the Weather

- Know your skill level and avoid weather or water conditions that exceed your skill.
- Constantly scan for potential hazards and changing weather conditions.
- During a thunderstorm, pull over to the side of the river. Get out of your boats. Try to not be the tallest thing or be under the tallest thing. Avoid rocks or caves. Wait until the lightning has passed before beginning your trip again.

Be Prepared for the Unexpected

- Always be prepared for the unexpected flip.
- Sun and wind can be very dehydrating—make sure you drink plenty of water.
- We recommend that you do not jump from rocks, cliffs or rope swings. Logs and other debris can be hidden from the surface and cause injury.

Be Considerate of Others

- Be considerate of other paddlers, swimmers, fisherman and other boaters.
- Fly Fisherman cast across the entire width of the river, allow them time to reel in their line, then paddle past them.
- If someone is fishing from a boat or bank fishing, go around their fishing line, try to avoid paddling between the fisherman and the end of the line.

DO NOT BLOCK THE BOAT RAMPS OR ACCESS AREAS.

- When launching or taking out at the end of the day, keep your group on one side of the boat ramp so you do not block the ramp.
- **Bring all your trash with you**, we will be happy to take your trash at the end of the day
- Respect private property, obey No Trespassing Signs or Private Property Signs

Impairment = Accidents

- Never Boat under the influence, don’t use alcohol or drugs while paddling
- State law does not allow consumption of alcohol at any of the boat ramps.
- We do not allow consumption of alcohol on our property or in our vehicles. If you drink, drink responsibly, but again we recommend that you not drink while on the river
